**Campaign of Love:**  
**“Love Heals” Global Online Meditation**  
**Unites Hundreds of Thousands**

**Mathematically Designed Music Heals  
the Physical Body and Emotional Heart**

**WHAT/WHEN:** On May 31st at 11:00a PST, there will be a Global Gathering for Peace and Healing, uniting hundreds of thousands of people in meditation using the proven healing power of love and mathematically composed music.

**WHERE:** Everyone is welcome and encouraged to register for the free #LoveHeals Global Online Meditation at this link:<https://www.eventbrite.com/e/loveheals-global-meditation-super-class-with-dr-joseph-michael-levry-tickets-104086501528>

**WHY:** The #LoveHeals campaign is rising to the unique global isolation challenge presented by COVID-19, and asking the entire world to respond with the power of love -- generosity, kindness, empathy and connection -- and healing sound vibration, both of which have been shown scientifically to have a positive impact on brain cells and cognitive function.

**WHO:** The #LoveHeals campaign is led by global visionary Dr. Joseph Michael Levry and features a collaborative music video with musicians and personalities, infused with the same mathematically harmonious compositions that Dr. Levry uses in his Healing Beyond Medicine music series, designed to have the greatest possible healing impact on the nervous system, brain and overall health.

Selections from this series have been shown by neuroscientists to significantly reduce pain in children undergoing cancer treatment in a recent study at Memorial Sloan Kettering Cancer Center in New York City.

**QUOTES:** Former U.S. Surgeon General under President Barack Obama, Dr.

Vivek Murthy, shares a similar perspective, “There’s nothing more powerful than love in terms of its ability to heal. There’s nothing I’ve written a prescription for that eclipses what love can do in the face of extraordinary injury and trauma and pain.”
